Jason Baca, 32514 County Road 112, Pequot Lakes, addressed the Council. Mr. Baca stated that he is being robbed by the City with a property tax increase of 10.5%. Mr. Baca noted that he would like the City to reduce the police budget to \$175 per capita as \$235 per capita is excessive for a community of our size. He advised the Council to reduce the police force as excess policing leads to excessive nagging.

5.1. Highway 371 Expansion Project Update

Randy Shoen and Dave Domm from Mathiowetz Construction updated the Council on the Highway 371 Expansion Project. Nancy Adams informed the Council that public restroom signs have been ordered and will be installed at the Library. She noted that the Library Board approved extending the Library's hours of operation on Saturdays until 4:00 p.m. and signs are displayed on entrance doors of businesses noting that public restroom facilities are located at the Pequot Lakes Library, Chamber, and City Hall buildings.

Council Member Akerson questioned if restroom modifications should still be made.

Nancy Adams noted the reason for extending the Library's hours of operation is to alleviate the need for modifications of the existing restroom facilities at the Library. She further questioned if City Hall could be retrofitted and utilized as a public restroom for Sundays.

Council Member Loukota noted the City will monitor this until December with the possibility of re-evaluation at that time.

9.3. Facility Addition Feasibility Study

Nancy Malecha informed the Council that the Building Committee met on September 15th and recommends the City Council proceed with the Feasibility Study to include only a new facility option consisting of 9,000 square feet with means for future expansion, a fabric dome type salt shed, and include information addressing the succinct list of items the Council has discussed at past meetings.

Ms. Malecha further noted that the Committee analyzed both current and future space needs for the public works department and determined that a 9,000 square foot structure is adequate and should be constructed with the possibility of future expansion.

Council Member Pederson stated the Study should explore if the entire structure needs in-floor heat and if there is any other City owned property that might be a more suitable location.

Mayor Sjoblad commented that the central location of the Derksen Road property is ideal for the public works facility.

COUNCIL MEMBER AKERSON MOVED TO PROCEED WITH THE FINAL VERSION OF THE MAINTENANCE DEPARTMENT FACILITY ADDITION FEASIBILITY STUDY TO INCLUDE A NEW 9,000 SQUARE FOOT STRUCTURE WITH A FABRIC DOME TYPE SALT SHED TO BE LOCATED ON FIVE ACRES ALONG DERKSEN ROAD ON THE CITY'S SPRAY IRRIGATION FIELD. COUNCIL MEMBER LOUKOTA SECONDED THE MOTION. MOTION CARRIED 5-0.

9.4. Myers Road/9th Avenue

Council Member Loukota explained that he was approached by Loon Lake Township on the possibility of a joint road project for Myers Road. The project would entail cutting down the hill and adding gravel to the entire road. This would be a 50/50 split cost with the City's share being approximately \$11,000. Council Member Loukota noted that this project would not include re-shaping the corner to soften the curve on the north end.

Mike Loven informed the Council that the City has approximately 4.6 miles of gravel roads and of these over three miles are joint roads with Loon Lake Township. Mr. Loven noted that the Roads and Streets budgets for 2016 and 2017 do not account for this additional expense.

Council Member Pederson stated this may be an opportune time to sit down with Loon Lake Township representatives to discuss improvement possibilities for all joint roads.

The consensus of the Council agreed to not move forward with the Myers Road joint project with Loon Lake Township; however, they would be open to future discussions on joint road efforts.
