

## AGENDA ITEM #9.3

# REPORT TO CITY COUNCIL

**Report Prepared by: Nancy Malecha**

---

**Date:** June 7, 2016

**Subject:** Street Name – East Twin Trail

**Report:** At the May 3<sup>rd</sup> City Council Meeting, Don Kremer addressed the Council on the naming of the street segment between Olson Road and Pow Wow Point as noted in the minutes excerpt below.

*Don Kremer, 28122 State Highway 371, Pequot Lakes addressed the Council. Mr. Kremer requested the City use the street name of East Twin Trail for the new street segment between Olson Road and Pow Wow Point. Mr. Kremer noted that the residents along this segment as well as the East Twin Lake Association support this request.*

At the April 5<sup>th</sup> City Council Meeting, the Council approved the south segment be named Pow Wow Point and the north segment be named Olson Road based on the recommendation from the Highway 371 City Coordination Team to bring continuity with existing street names in that area.

The attached information provides a map highlighting this segment as well as information provided by Mr. Kremer at the last Council meeting.

The Council will need to determine whether to keep the street segment name of Pow Wow Point to the south and Olson Road to the north or change the entire segment name to East Twin Trail.

**Council Action Requested:** Council discussion on the street segment name between Pow Wow Point and Olson Road.

RE: Highway 371 North Improvement Project

Dear Mayor Malecha:

I am writing on behalf of the homeowners on East Twin Lake concerning the proposed changes to Highway 371 North.

The interchange at Olson Road will be upgraded and an east frontage road will provide property access to homeowners between Olson Road and Pow Wow Point. We propose that the name of that frontage road be designated "East Twin Trail". This topic was discussed at our East Twin Lake Association annual meeting in May and it was a unanimous decision to make this recommendation.

Sincerely,

Tom Adams, President  
East Twin Lake Association

Cc: Tim Bray, MN/DOT Project Manager
