

Water Meter Replacement Fee Policy

The City Council has established a water meter maintenance and replacement fee policy.

In review of our water/wastewater rate study, city council has approved to implement a fee for maintenance and replacement of water meters. This policy fee will be split between small and large meters. This fee is necessary for the future replacement of all water meters.

Meter Fees: Listed in the City's Fee Schedule

Adopted by Council on 2/4/2008
