

## **AGENDA ITEM #8.1**

### **REPORT TO CITY COUNCIL**

**Report Prepared by: Sergeant Chad Turcotte**

---

**Date:** March 5, 2019

**Subject:** LUCAS CPR Device

**Report:** The LUCAS CPR device is a mechanical chest compression device that helps with lifesaving measures. It is designed to deliver uninterrupted compressions at a consistent rate and depth to facilitate return of spontaneous circulation. This device will help officers save lives due to sudden cardiac arrest and avoid neurological damage during an event by supplying a steady supply of oxygen to both the heart and the brain. CPR is nothing short of tiring and difficult and this device will free up first responders to focus on other duties to best save lives.

The cost to purchase the LUCAS CPR device from Stryker Emergency Care is \$16,221.77 (minus sales tax) which is a non-budgeted expenditure. The Police Department has received \$3,000 in donations from various donors and a \$2,500 grant from Sourcewell for this device. We have also received an ongoing donation commitment from a community organization and a homeowner until the LUCAS device is fully paid. Any potential remaining cost for the device will be paid for by utilizing forfeiture funds.

#### **Council Action Requested:**

- Council motion accepting the grant from Sourcewell in the amount of \$2,500 for the LUCAS CPR device.
- Council motion approving the purchase of the LUCAS CPR device in the amount of \$16,221.77 from Stryker Emergency Care to be paid for with the grant, donations, and forfeiture funds as noted above.
