

AGENDA ITEM # 9.1

REPORT TO CITY COUNCIL

Report Prepared by: Jason Gorr – Public Works Director

Date: November 5, 2019

Subject: Our Savior's Church Handicap Parking Request

Report: Our Savior's Church on Front Street is requesting some modifications to the on-street parking spots. Specifically, it was requested the northernmost handicap parking spot (noted in yellow on the attached map) be modified into a drop-off only designation to allow for unobstructed drop offs in front of the access door. Also, requested was an additional handicap parking spot immediately south of the existing parking (noted in blue on the attached map). I recommend the Council approve these requests and we can re-stripe these spots as a part of the City's 2020 Striping Projects.

Also, as part of the recently completed Traffic Study, I am requesting further modifications along Front Street to include the following.

- No parking along the roadway curve by TDS Telecom (see attached map).
- A white fog line on the roadway curve by TDS Telecom (see attached map).
- No parking from Second Street to Patriot Avenue on the south side by Dollar Tree.

Council Action Requested:

1. Council motion approving the modifications to on-street parking spots along Front Street as requested by Our Savior's Church.
2. Council motion approving the modifications along Front Street which include no parking areas and a white fog line.
