

AGENDA ITEM #9.2

REPORT TO CITY COUNCIL

Report Prepared by: Jason Gorr – Public Works Director

Date: February 5, 2019

Subject: Traffic Study

Report: As a follow-up to the Special City Council Meeting on January 22nd, Widseth Smith Nolting (WSN) is preparing a traffic study proposal. Narrowing down the intersections to be counted is a challenge and WSN will be in communications with the Public Works Director regarding this. WSN anticipates having a draft proposal for Council review at the March City Council meeting with the intent to collect traffic data in the first half of May while school is still in session and pedestrian and bicyclist traffic is available.

Council Action Requested: No Council action requested.
