## ***I. PROGRAM INFORMATION***

The Outdoor Recreation Grant Program assists local governments in acquiring parkland and developing or redeveloping outdoor recreation facilities in local and community parks throughout the state.

Metro Regional Parks and Greater Minnesota Regional Parks are not eligible for funding under this program. Funding for designated regional parks and trails is available from the Metropolitan Council and the Greater Minnesota Regional Park and Trails Commission.

For answers to frequently asked questions about this program, please see our FAQs.

### ***DEADLINE***

Applications must be submitted by **March 31, 2022**, to be eligible for funding assistance for the current year. You are encouraged to submit a draft application by **March 10th** for review and comments by program staff.

### ***FUNDING***

There are two sources of funding for the Outdoor Recreation Grant Program: federal and state funds. Federal funds come from the Land and Water Conservation Fund (LWCF). Federal funding available for FY 2023 has not yet been allocated but should be at least \$2 million for the Outdoor Recreation Grant Program and the Natural and Scenic Areas Grant Program.

State funding available for FY 2023 is a portion of \$1.1 million from "In Lieu Of" Lottery proceeds available for three Park and Trail grant programs and \$250,000 in general funds. Additional state Environment and Natural Resources Trust Fund dollars may be recommended by the Legislative Citizens Commission on Minnesota Resources (LCCMR). Other state funding may be available but are subject to Legislative approval. Final amounts available will not be known until after the application deadline.

### ***GRANT AWARDS AND MATCH REQUIREMENTS***

Grants are reimbursed based up to 50 percent of the total eligible costs. The maximum grant award is \$300,000 (for a total project of \$600,000). The match can consist of cash or the value of materials, labor and equipment usage by the local sponsor or by donations or any combination thereof. Applicants that provide, at least 20% of the match from their own resources and/or have their match committed at the time of the application will receive additional consideration in the review.

Unskilled volunteer labor is valued, for this grant program, at \$9.00 per hour. Skilled volunteer labor is valued at its going rate. The invoice/letter must be on a company letterhead, detailing

the work completed and the amount of the donation.

### ***ELIGIBLE APPLICANTS***

Cities, counties, and townships.

**Note:** The applicant must be the current or intended owner and manager of the property to be acquired or developed. Multi-organization collaboration is not required for this program.

### ***ELIGIBLE PROJECTS***

- Acquisition of land for future development of outdoor recreation facilities. Public access, including park and funding acknowledgement signs must be posted prior to close of the grant. Recreation facilities must be developed within three years from the date of acquisition.
- Development, redevelopment, or rehabilitation of outdoor recreation facilities on land owned by the applicant.
- A combination of land acquisition and development, redevelopment, or rehabilitation of outdoor recreation facilities.

### ***ELIGIBLE RECREATION FACILITIES***

One or more of the following major recreation facilities must be included in a proposed project:

- Boat/Canoe Access Sites
- Campgrounds
- Fishing Piers/Shore Fishing Areas
- Skating Rinks/Parks
- Nature Study/Observation Areas
- Picnic Shelters
- Playgrounds, including nature playgrounds
- Sports Fields and Courts
- Swimming Beaches and Outdoor Pools
- Splash Pads
- Trails (non-motorized internal park trails)

It is our expectation that all existing and proposed facilities have accessible walkways to them. Please account for this in your project/budget.

### ***ELIGIBLE RECREATION SUPPORT FACILITIES***

The following support facilities are also eligible for funding as part of a grant application that contains at least one facility from the eligible recreation facilities list above.

- Change houses, restrooms, shower buildings and warming houses.
- Fencing, lighting and signs.

- Landscaping and natural area restoration.
- Park roads and parking areas (may not exceed 40% of the total project cost).
- Fixed park furnishings such as benches, drinking fountains, grills, picnic tables, trash receptacles and fire pits.
- Walkways.

### ***INELIGIBLE FACILITIES AND EXPENSES***

Ineligible facilities or expenses are items that may not be funded by the grant or included as part of the local match requirement. The following list includes common types of ineligible facilities. A determination of eligibility will be made by the DNR.

- Construction of any facility on land not owned by the applicant/grant recipient.
- Acquisition of land already in public ownership.
- Any expenditure that occurs outside the dates of the grant contract.
- Facilities not available for general public use.
- Administrative expenses such as indirect costs, contingency allowances, archeological surveys, and legal fees.
- Design and engineering in excess of 10% of the total construction cost.
- Construction of indoor recreational facilities (i.e., ice arenas, enclosed swimming pools, etc.), concession-only buildings, press boxes, golf courses, shooting ranges and motorized trails.
- Decorative fountains, statues, and plaques.
- Non-permanent skate park ramps.
- Sewer to individual campsites.
- Historic signage.

## ***II. THE APPLICATION PROCESS***

The application is available to download from the [Outdoor Recreation Grant Program](#). We urge applicants to begin the application process early to allow time to complete application requirements such as obtaining community involvement and completion of appraisals.

Only one park may be included in an application and only one application per park. Applicants are eligible to submit more than one application and receive more than one grant. Significant progress must be completed on active projects before an additional proposal can be submitted.

Completed applications are to be submitted electronically in a “.pdf” format by **March 31, 2022** to [Parkgrants.DNR@state.mn.us](mailto:Parkgrants.DNR@state.mn.us), using the instructions in the application form. Staff members are available to discuss your project or review application materials. You are encouraged to submit any draft application or materials by **March 10th** if you would like staff to provide comments. Incomplete applications or applications received after the deadline will not be eligible for funding consideration.

## ***PUBLIC PARTICIPATION AND USE***

Prior to the submission of your application, it is our expectation that you have engaged the general public, especially those homeowners and businesses near the proposed project. You may do this through public meetings, announcements in the newspaper, letters or flyers, newsletters, an announcement on your website, emails, or face-to-face meetings. The public must have an opportunity to review and comment on the proposed project. Information detailing your public participation process and comments received are required in your application.

All facilities within the park must be designed and available for general public use and open during typical park hours. This includes restrooms, picnic shelters, campgrounds, playgrounds, and other structures. For parks that include marina or campground facilities, an appropriate percentage of the berths/campground spaces must be available for short-term rental and an equitable method of allocating long-term rentals shall be used. All personal property must be removed at the end of each use season.

## ***APPRAISAL REQUIREMENTS***

For acquisitions, the application must include an appraisal report by a general real property appraiser licensed by the State of MN that meets the Uniform Appraisal Standards for Federal Land Acquisition (UASFLA). It must include the DNR and the National Park Service (NPS) as intended users. The landowner or designated representative must be given an opportunity to accompany the appraiser during the inspection of the property. Appraisals must have an effective date within six months of the application deadline.

If your application is selected for funding, you may be required to submit a technical review of the appraisal report conducted by an appraiser who is not associated with the original appraiser and who is qualified to perform technical reviews under the UASFLA and 49 CFR Part 24.104. See UASFLA Section C-1 for further guidance on technical reviews.

## ***COMPETITIVE REVIEW AND SELECTION PROCESS***

The program is competitive and requires a review and selection process to make funding determinations and awards. This will take place after March 31, 2022, and funding announcements will be made in summer. Program staff will review applications and, if necessary, a site visit will be conducted. The review will focus on priorities set in the State Comprehensive Outdoor Recreation Plan and project specific criteria identified below.

## ***MINNESOTA'S 2020-2024 STATE COMPREHENSIVE OUTDOOR RECREATION PLAN***

Minnesota's 2020-2024 State Comprehensive Outdoor Recreation Plan (SCORP) provides

guidance and direction to the state's outdoor recreation providers for their work in protecting, maintaining and enhancing outdoor recreation opportunities for the state's residents and visitors.

An important part of developing the SCORP is public and stakeholder input. To better understand patterns and priorities for outdoor recreation in Minnesota, several efforts were used to gather information and feedback from outdoor recreation providers and from the public including an Outdoor Recreation Household Survey, Parks and Trails Legacy Celebration Events and an Outdoor Recreation Providers Survey. A twelve-member Steering Committee was formed to help guide the development of the SCORP. The Steering Committee included local and regional park agency staff, members of outdoor recreation advocacy groups, and community leaders involved with health, youth, and accessibility issues.

The SCORP identifies current and future trends affecting outdoor recreation in Minnesota including issues around public health; addressing diversity, equity, and inclusion challenges; demographic changes in Minnesota's population; climate change impacts and accessibility. Taken together, these trends and the strategies within the Strategic Directions represent both challenges and opportunities for Minnesota's outdoor recreation providers for the next five years. The intention is that the 2020-2024 SCORP will aid these agencies and organizations as they plan for and invest in facilities and programs to meet the outdoor recreation interests of Minnesota's residents and visitors.

Applications are assessed to ensure that the proposed project is consistent with identified priorities established in the SCORP.

### ***SELECTION PRIORITIES***

**SCORP Plan (60%)** - Selection criteria are based on priority actions identified under the following three strategic directions in the SCORP.

#### **How Does the Project Connect People to the Outdoors?**

- How does the proposed project design and redevelop outdoor recreation facilities so that they can accommodate varying forms of transportation to sites (e.g., driving, walking, biking)?
- How does the proposed project design, develop, rehabilitate and manage outdoor recreation facilities to encourage use by people with all abilities and diverse backgrounds (e.g., accessible seating, bathrooms, drinking water, shade opportunities, informational signs, safety features)?
- How does the proposed project provide high-quality experiences to visitors through thoughtful design, programming, and interpretation (e.g., does the project develop or expand facilities to provide high quality experiences and/or interpretive signs)?

### **Does the Project Acquire Land and/or Create Opportunities?**

- Is the proposed project located in a densely settled area or area of rapid population growth?
- Does the proposed project accelerate the acquisition of private in-holdings and add lands to existing parks to enhance resource protection and recreational opportunities?
- Does the proposed project acquire exceptional one-time opportunities of unique, high-quality natural resources that meet critical needs outside of regional centers?
- Does the proposed project acquire land to connect protected and high-quality natural resource corridors?
- Does the proposed project acquire land that protects important water resources including lakes, rivers, wetlands, shoreline, and critical watersheds?
- How does the proposed project design, develop, and/or redevelop facilities that meet the differing outdoor recreation needs for people of all abilities (e.g., a quality natural setting for a high-quality recreational experience, universal design, family friendly facilities, more separation of uses, tent and RV and privacy between site for camping, etc.)?
- How does the proposed project create an accessible environment that is open and flexible to accommodate new and emerging nature-based recreation uses (e.g., facility design that supports numerous activities, maintains large open play areas, incorporates emerging nature-based activities, etc.)?
- How does the proposed project develop infrastructure and amenities that meet the needs and interests of future generations and diverse communities (e.g., develop group-based opportunities such as group campsites, group picnic areas, and gathering spaces used by diverse communities. Offers amenities that meet the lifestyles of our target markets such as wireless internet, playgrounds, family bathrooms, areas for specialized interest, etc.)?
- Is the proposed project designed and constructed with sustainable and resilient infrastructure (e.g., rely on up-to-date green infrastructure and best practice designs, is energy efficient, easy to maintain and uses recycled/recyclable materials, conserve the use of water at facilities and/or design facilities to effectively manage storm water onsite.)?

### **Does the Project Take Care of What We Have?**

- Does the proposed project result in redevelopment, renovation or rehabilitation of existing infrastructure to ensure high-quality and safe experiences for the public (e.g., roof replacement, structural replacement, trail resurfacing, trail head amenities refurbished, campgrounds rehabbed and updated, bring facilities up to modern codes and standards, and/or make it easy for everyone to access and enjoy parks and trails)?
- Does the project sponsor maintain a capital asset management plan to ensure protection and full utilization of the proposed facilities (Yes or No, describe)?
- Does the proposed project preserve existing high-quality natural areas and water resources?

- Does the proposed project restore and reconstruct natural communities that have been degraded or lost due to agriculture or development?

#### **Additional Non-SCORP Review Components (40%)**

- Project Specific Criteria including cost vs. benefit, application and project quality and local match.
- Park and Facility Design: Use & design are compatible with site, makes good use of available space, avoids conflicts among facilities and avoids conflicts with adjacent uses.
- Health and Safety: Consider health and safety risks.
- Appropriate Design Standards: All facilities must be accessible and designed consistent with standards.
- Environmental Intrusions: All non-recreational intrusions are documented, and the impact has been considered in the park design. All power lines serving the park facilities must be placed underground.

#### **AWARD OF FUNDS**

All applicants will receive official written notification regarding their request for funding in the summer. If your proposed project has received preliminary approval for funding, you will be contacted regarding additional information requirements needed before a grant agreement can be processed. These requirements may include State Historic Preservation Office (SHPO) review, permits and other details.

The project start date will be the fall of 2022 or later depending on requirements for environmental resources, historical and archeological resources, and federal approval, if applicable. All work must be completed by June 30, 2024. Most of our funding does not allow for a project extension beyond this date. Applicants should focus on projects that will be completed during the 2023 construction season. Any project costs incurred prior to the start date of the grant agreement will not be eligible for reimbursement.

#### **REIMBURSEMENT OF FUNDS**

Payment of grant funds to the local sponsor is on a reimbursement basis. The grant recipient must initially expend funds that are then reimbursed under the terms of the grant agreement. Applicants may request reimbursement up to four times during the contract period using the [Reimbursement Manual](#). A portion of the grant funds will be retained until an on-site final inspection has been completed.

#### **GRANTS AND PUBLIC INFORMATION**

Under [MN Statute 13.599](#), responses to a request for proposal are nonpublic until the

application deadline is reached. At that time, the name and address of the Grantee, and the amount requested becomes public.

After the application evaluation process is completed, data (except trade secret data) becomes public. Data created during the evaluation process is nonpublic until the negotiation of the grant agreement with the selected Grantee(s) is completed.

MN Statute 13.44 categorizes estimated or appraised value of real property prior to purchase and sale as confidential data on individuals or protected nonpublic data. See also Minnesota Government Data Privacy Act for more information. This information, along with corresponding budget information, will be redacted from the applications before making them public.

### **III. PROGRAM REQUIREMENTS**

#### **ACCESSIBILITY STANDARDS**

All facilities improved with this grant project must meet current Americans with Disabilities (ADA) standards. All critical components of the park listed below must be accessible to persons with disabilities.

Critical components include:

- Accessible parking spaces serving each area of the park.
- Accessible restrooms, if restrooms are provided.
- Accessible drinking water, if drinking water is provided.
- Access routes to all recreation facilities provided in the park. If your facilities do not have access routes to them, you need to include the cost in your Cost Breakdown. For this program, an access route must be a minimum of five feet wide, slip resistant, firm and stable.

If a grant is awarded, part of the grant will be withheld pending verification of access compliance by an on-site final inspection.

The following guidelines will help you design your facilities. Copies can be ordered from the U.S. Access Board at (800) 872-2253 or downloaded from their website at United States Access Board.

1. ADA Accessibility Standards for Buildings and Facilities

(For buildings and certain recreation facilities including playgrounds, recreational boating facilities, and fishing piers)

2. Final Accessibility Guidelines for Outdoor Developed Areas September 26, 2013

(For outdoor developed areas such as campgrounds, picnic areas, trails, and beaches. These

guidelines, developed for federal facilities subject to the Architectural Barriers Act, are to be used for facilities improved by this Outdoor Recreation Grant Program.)

### ***LAND RETENTION REQUIREMENTS***

**All land improved or acquired with assistance from this grant program must be retained and operated solely for outdoor recreation into perpetuity.**

The Recreational Site Plan submitted with your application will delineate and establish the property boundaries subject to the grant agreement. Therefore, it is very important that any existing public facilities and any known future public facilities (e.g., wells, lift stations, roadway improvements, etc.) are clearly identified and excluded from the boundaries of the project. All rights-of-way, easements, reversionary interests, etc. within the proposed boundary area should also be designated. The site boundaries should include only the property that the project sponsor plans on managing for outdoor recreation uses in perpetuity.

### ***DEED RESTRICTION REQUIREMENT***

The Grantee will be required to record a condition with the deed of the real property funded by the grant agreement that notifies the public of the grant and the grant program requirements. The specific deed restriction language varies depending on the source of grants and will be outlined in the grant contract. This requirement is for all projects acquisition and development.

### ***CONVERSION OF USE***

The Grantee shall not, at any time, convert this property to non-outdoor recreation uses without the prior written approval of the State acting, through the DNR and, for federal grants, the NPS. The DNR will consider a conversion request only after the following pre-requisites have been met:

1. All practical alternatives to the conversion have been evaluated and rejected on a sound basis.
2. The Grantee has agreed to replace the converted lands with other lands of, at least, equal fair market value and reasonably equivalent recreational usefulness as determined by the State.

The DNR shall have the authority to approve or disapprove state conversion requests. For federal grants, the NPS will approve or disapprove the conversion requests. Approval of a conversion request is dependent on completion of the Conversion of Use process.

## ***NATIVE RESTORATION REQUIREMENTS***

All restoration activities will require a restoration and management plan to be submitted prior to contract approval and must follow the Board of Soil and Water Resources "Native Vegetation Establishment and Enhancement Guidelines" in order to ensure ecological integrity and pollinator enhancement.

When restoration activities are completed using grant funds, the Grantee must conduct evaluations on parcels where activities were implemented both 1) initially after activity completion and 2) three years later as a follow-up. Evaluations should analyze improvements to the parcel and whether goals have been met, identify any problems with the implementation, and identify any findings that can be used to improve implementation of future restoration efforts at the site or elsewhere. Evaluation reports must be submitted to the DNR.

The Grantee should consider contracting with the Conservation Corps of Minnesota for restoration activities.

## ***REVIEW FOR POTENTIAL IMPACTS ON HISTORICAL/ARCHEOLOGICAL RESOURCES***

If funded, the DNR will initiate the federal Section 106 and/or state review process with the Minnesota State Historic Preservation Officer (SHPO). If during the Section 106 or state review process, the SHPO determines you need to complete a Phase I or Phase II survey, the survey will need to be completed prior to project approval for development projects and prior to the final reimbursement of the grant funds for acquisition projects.

For projects that have archeological and or historic properties identified with potential impacts, you will need to re-engage your public review process. You will need to identify consulting parties\*. The consulting parties and public need to have an opportunity to review and comment on the park plans in relation to the historic and archeological resources and potential impacts. The views of consulting parties and the public are essential to informed decision making. We encourage you to start consultation as early as possible.

\* Consulting party: individuals or organizations with demonstrated interest in the project. This interest could be legal or economic or it could be interest in the project's effects on historic properties. The NPS, in concurrence with the SHPO and the appropriate Tribal Historic Preservation Officer (THPO), will evaluate and determine who will become a consulting party to the federal Section 106 process.

## ***WATER PERMITS***

Development or alteration of shoreline adjacent to rivers, streams, lakes, and other public

water bodies may require a written permit issued by DNR. In addition, projects involving work within waters and wetlands may require a permit from the U.S. Army Corps of Engineers (COE). Grantees will be required to determine whether a water permit is required by contacting both the DNR and the COE directly. Contact Information:

U.S Army Corps of Engineers Regulatory Functions

Department of Natural Resources: Public Waters Work Permits

### ***CAMPGROUND PLAN APPROVAL***

All new and existing campgrounds and marinas must adhere to the Local Grants Program Campground/Marina Rental Policy.

Campgrounds must comply with state laws and rules set by the Minnesota Department of Health. A summary of these requirements is available at Summary of General Requirements for Recreational Camping Areas. Grantees must submit plans and receive approval for the development of a recreational camping area to the MN Department of Health or your local health authority before construction begins. Upon completion of the campground, a license application, license fee and inspection by the area health inspector is required. A copy of the license must be submitted with your final payment request.

### ***REPORTING REQUIREMENTS***

It is the policy of the State to monitor progress on state grants by requiring Grantees to submit written progress reports, at least, annually until all grant funds have been expended and all of the terms in the grant agreement have been met. A progress report form will be provided by program staff. Grant payments shall not be made on grants with past due progress reports unless program staff have given the Grantee a written extension. See Policy 08-09: Grant Progress Reports for more information.

### ***MONITORING REQUIREMENTS***

It is the policy of the State to conduct, at least, one monitoring visit per grant period on all state grants of over \$50,000 and to conduct, at least, annual monitoring visits on grants of over \$250,000. See Policy 08-10: Grant Monitoring for more information.

### ***CONFLICTS OF INTEREST***

It is the policy of the State to work to deliberately avoid actual, potential, and perceived conflict of interests related to grant making at both the individual and organizational levels.

A conflict of interest (actual, potential, or perceived) occurs when a person has actual or apparent duty or loyalty to more than one organization and the competing duties or loyalties may result in actions which are adverse to one or both parties. A conflict of interest exists even if no unethical, improper, or illegal act results from it.

### **Actual Conflict of Interest**

An actual conflict of interest occurs when a decision or action would compromise a duty to a party without taking immediate appropriate action to eliminate the conflict. Examples include, but are not limited to:

- One party uses his or her position to obtain special advantage, benefit, or access to the other party's time, services, facilities, equipment, supplies, badge, uniform, prestige, or influence.
- One party receives or accepts money (or anything else of value) from another party or has equity or a financial interest in partial or whole ownership of the other party's organization.
- One party is an employee, board member, or family member of the other party.

### **Potential Conflict of Interest**

A potential conflict of interest may exist if one party has a relationship, affiliation, or other interest that could create an inappropriate influence if the person is called on to make a decision or recommendation that would affect one or more of those relationships, affiliations, or interests. For example, when one party serves in a volunteer capacity for another party, it has the potential to, but does not necessarily, create a conflict of interest, depending on the nature of the relationship between the two parties. A disclosed potential conflict of interest warrants additional discussion in order to identify the nature of the relationship, affiliation, or other interest and take action to mitigate any potential conflicts.

### **Perceived Conflict of Interest**

A perceived conflict of interest is any situation in which a reasonable third party would conclude that conflicting duties or loyalties exist. A disclosed perceived conflict of interest warrants additional discussion in order to identify the nature of the relationship, affiliation, or other interest and take action to mitigate any potential conflicts.

### **Organizational Conflict of Interest**

A conflict of interest can also occur with an organization that is a grant applicant or Grantee of a state agency. Organizational conflicts of interest occur when:

- A Grantee is unable or potentially unable to render impartial assistance or advice to the State due to competing duties or loyalties
- A Grantee's objectivity in carrying out the grant is or might be otherwise impaired due to competing duties or loyalties
- A Grantee or potential Grantee has an unfair competitive advantage through being furnished unauthorized proprietary information or source selection information that is not available to all competitors.

The Grantee, by signing a grant contract with the State, must certify it has read and understands the Office of Grants Management Conflict of Interest Policy 08-01, will maintain an adequate Conflict of Interest Policy and, throughout the term of the contract, monitor and report any actual, potential, or perceived conflicts of interest to the State.

### ***CLOSEOUT PROCEDURES***

Upon completion of your project, a final billing must be submitted to our office. Program staff will complete an on-site final inspection of all development and/or redevelopment projects. The inspection will focus on ensuring that the project was completed in accordance with the grant agreement, that facilities developed are accessible and a funding acknowledgment sign is installed. Prior to final reimbursement of your grant and official closeout notification of your project, any problems that are revealed during the inspection must be corrected.

All expenditures are subject to verification by an independent state audit and, therefore, you must retain all project records for a period of at least six years after you receive the official closeout notification letter.

Periodic post-completion inspections will be conducted to ensure that the site is being properly operated and maintained and that no conversion of use has occurred.

### ***ACKNOWLEDGMENT SIGN***

All projects acquired or developed with assistance from this program must display a state approved funding acknowledgment sign at the main entrance to the park. The grant program staff will provide the specific sign information.

### ***AVAILABILITY TO USERS***

Public property, facilities and programs shall be open to entry by all persons regardless of race, color, national origin, religion, or sex. No person, on the basis of disability, shall be excluded from participation in any program or activity receiving assistance from this program. Discrimination on the basis of residence, including preferential reservation, membership or annual permit systems is prohibited except to the extent that reasonable differences in admission and other fees may be maintained. Fees charged to non-residents cannot exceed twice that charged to residents and must be comparable to fees charged at other state or local facilities.
