

## REQUEST FOR ACTION CITY COUNCIL

Agenda Date: 8/5/2024  
Agenda Section: New Business

---

**Department:** Public Works

---

**Agenda Item:** Community Action Water Fountain Approval Request

---

**Approval Required:** Simple Majority Vote

### **BACKGROUND**

Community Action approved the purchase of a water fountain for Trailside Park in the amount of \$5,923. They discussed the fountain to be placed next to the existing picnic shelter. Nick Roy and Andy Schwartz stated that water source at that location may not contain potable water and suggested the water fountain replace the City's new water fountain that will be placed on the new pavilion that will be built this fall and next spring. They suggested it be plumbed in with the new building and tie it into that water line due to obstructions and costs to have it put by the old pavilion.

Community Action is requesting to have a plaque attached to the fountain labeled "Proudly Donated by Community Action" with their logo.

### **FINANCIAL IMPLICATIONS**

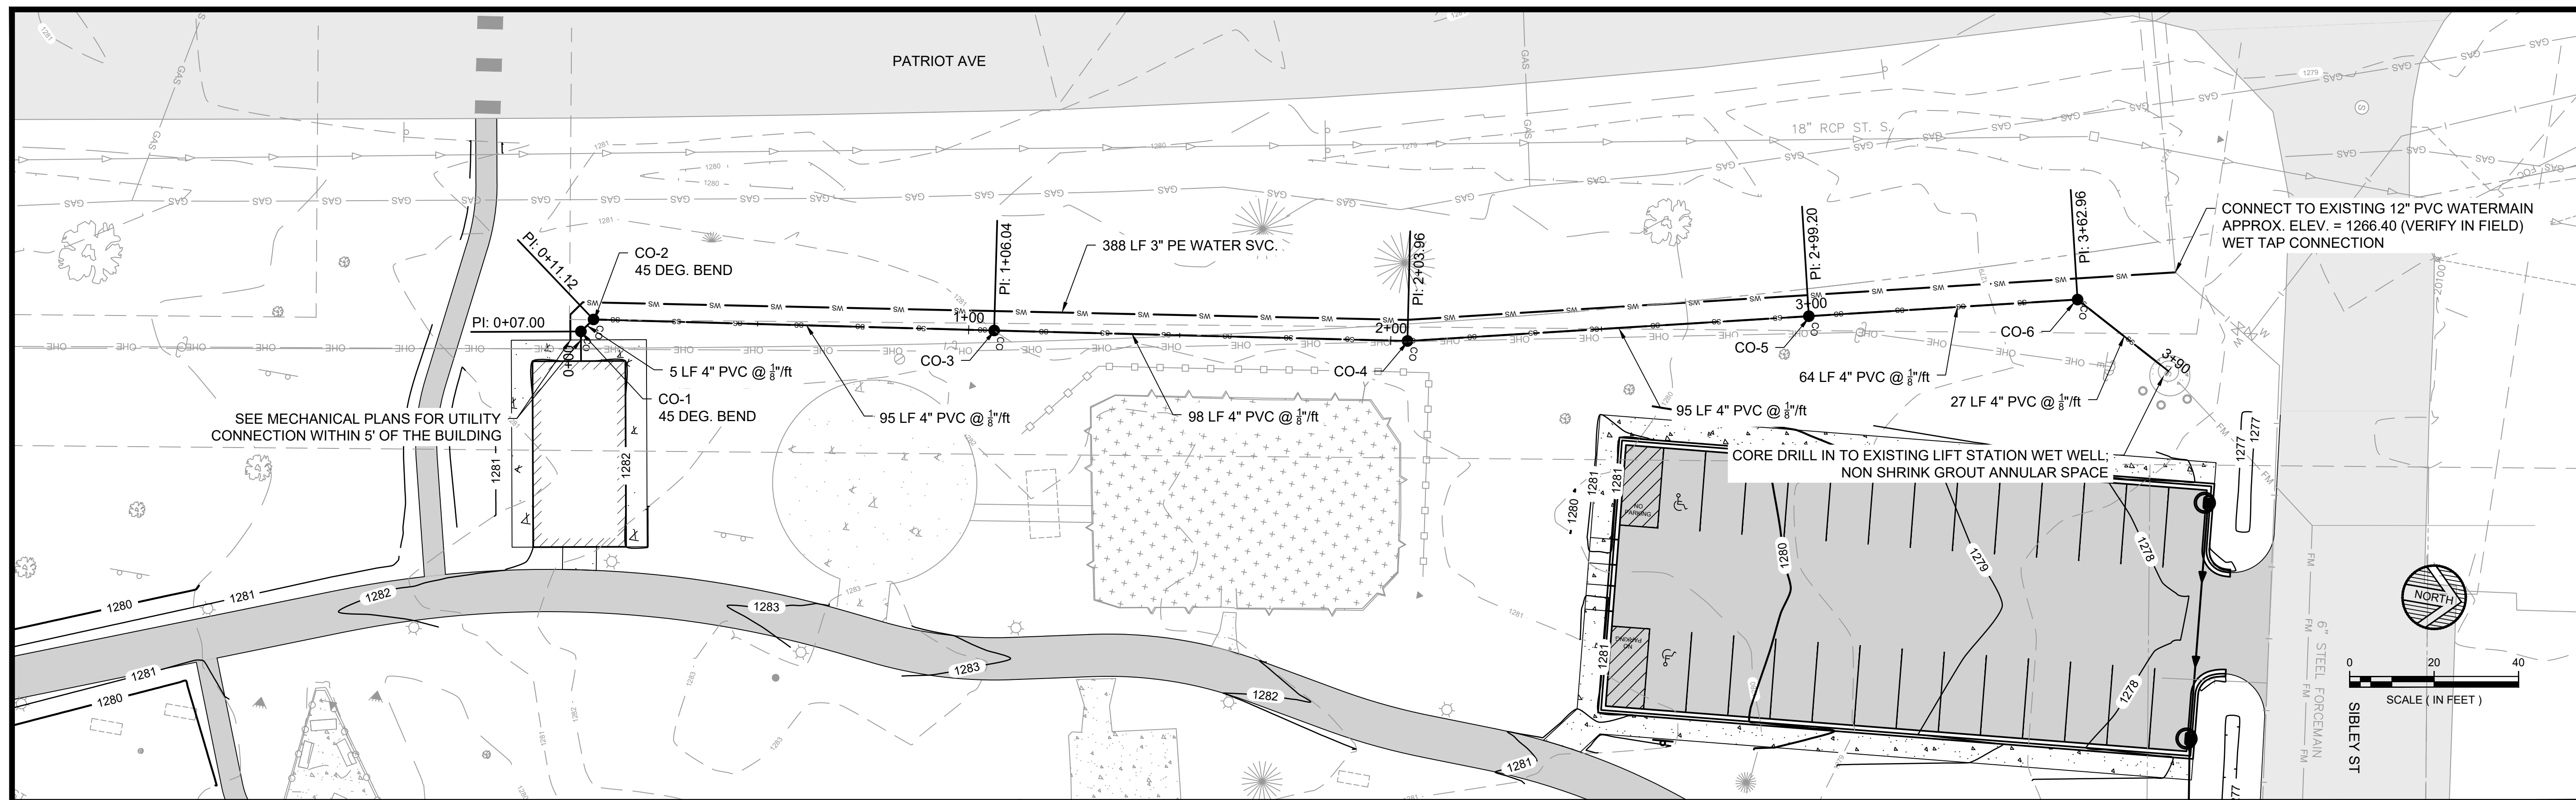

Water fountain will be donated to the city. If the location selected is by the old pavilion costs TBD.

### **STAFF RECOMMENDATIONS**

Staff recommends accepting the water fountain identifying Community Action as the donor with a plaque or sign and placing it on the new pavilion that will be built.

### **COUNCIL ACTION REQUESTED**

Motion to approve placing the water fountain on the new Trailside Park pavilion and identifying Community Action as the donor with a plaque or sign.
