

TRANSPORTATION OPTION

There is transportation available through the Crow Wing County Public Transit. They offer two types of transportation service: Flexible Routes and Dial-A-Ride.

The Flexible Routes are pre-established routes with pre-determined stop locations and times. Users of the system are expected to present themselves at one of the stop locations.

Dial-A-Ride service is a customized service based on individual needs. They offer curb to curb service. You must call the dispatch office no later than noon the day prior to the desired trip.

This is a great opportunity, especially when the weather is bad.
